

Hi Stefan,

Thanks again for your timely response in addressing our landscaping needs.....
The way I'd like to approach is use Cedar Grounds where necessary to demonstrate your ability and responsiveness - this in turn will help your cause further.

In fact, our current maintenance company complimented your work.

Let's stay in touch and see how things progress.

Many thanks,
Raj

Before:

After:

Scope of work, plant hedge, install river stone maintenance strip, mulch all beds on property, plant beds around entrance sign and main entrance.
